ANNUAL REPORT

DEPARTMENT OF FITNESS
RECREATION AND SPORT

PROVINCE OF MANITOBA
1981-1982

Presented to the Legislative Assembly by the
Command of the Lieutenant Governor

HON. L. L. DESJARDINS
MINISTER

ALAN R. MILLER
DEPUTY MINISTER

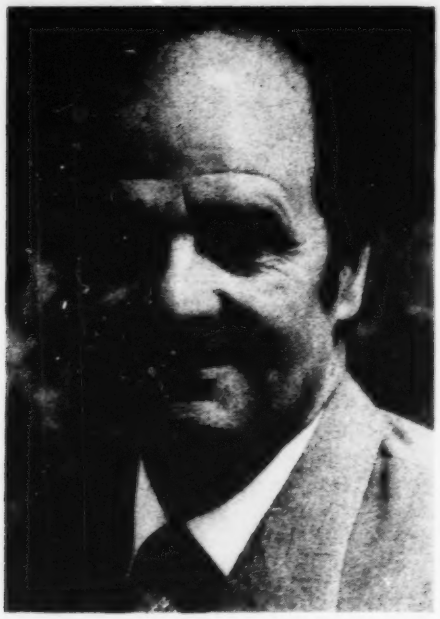
To Her Honour
Pearl S. McGonigal
Lieutenant-Governor
Province of Manitoba

May it Please Your Honour:

I present herewith the Fourth Annual Report of the Department of Fitness, Recreation and Sport.

The report outlines the activities and accomplishments of the department for the fiscal year ending March 31, 1982.

L.L. Desjardins



To Honourable Laurent L. Desjardins
Minister
Department of Fitness, Recreation and Sport

Sir:

I have the honour to present the Fourth Annual Report of the Department of Fitness, Recreation and Sport for the fiscal year ending March 31, 1982.

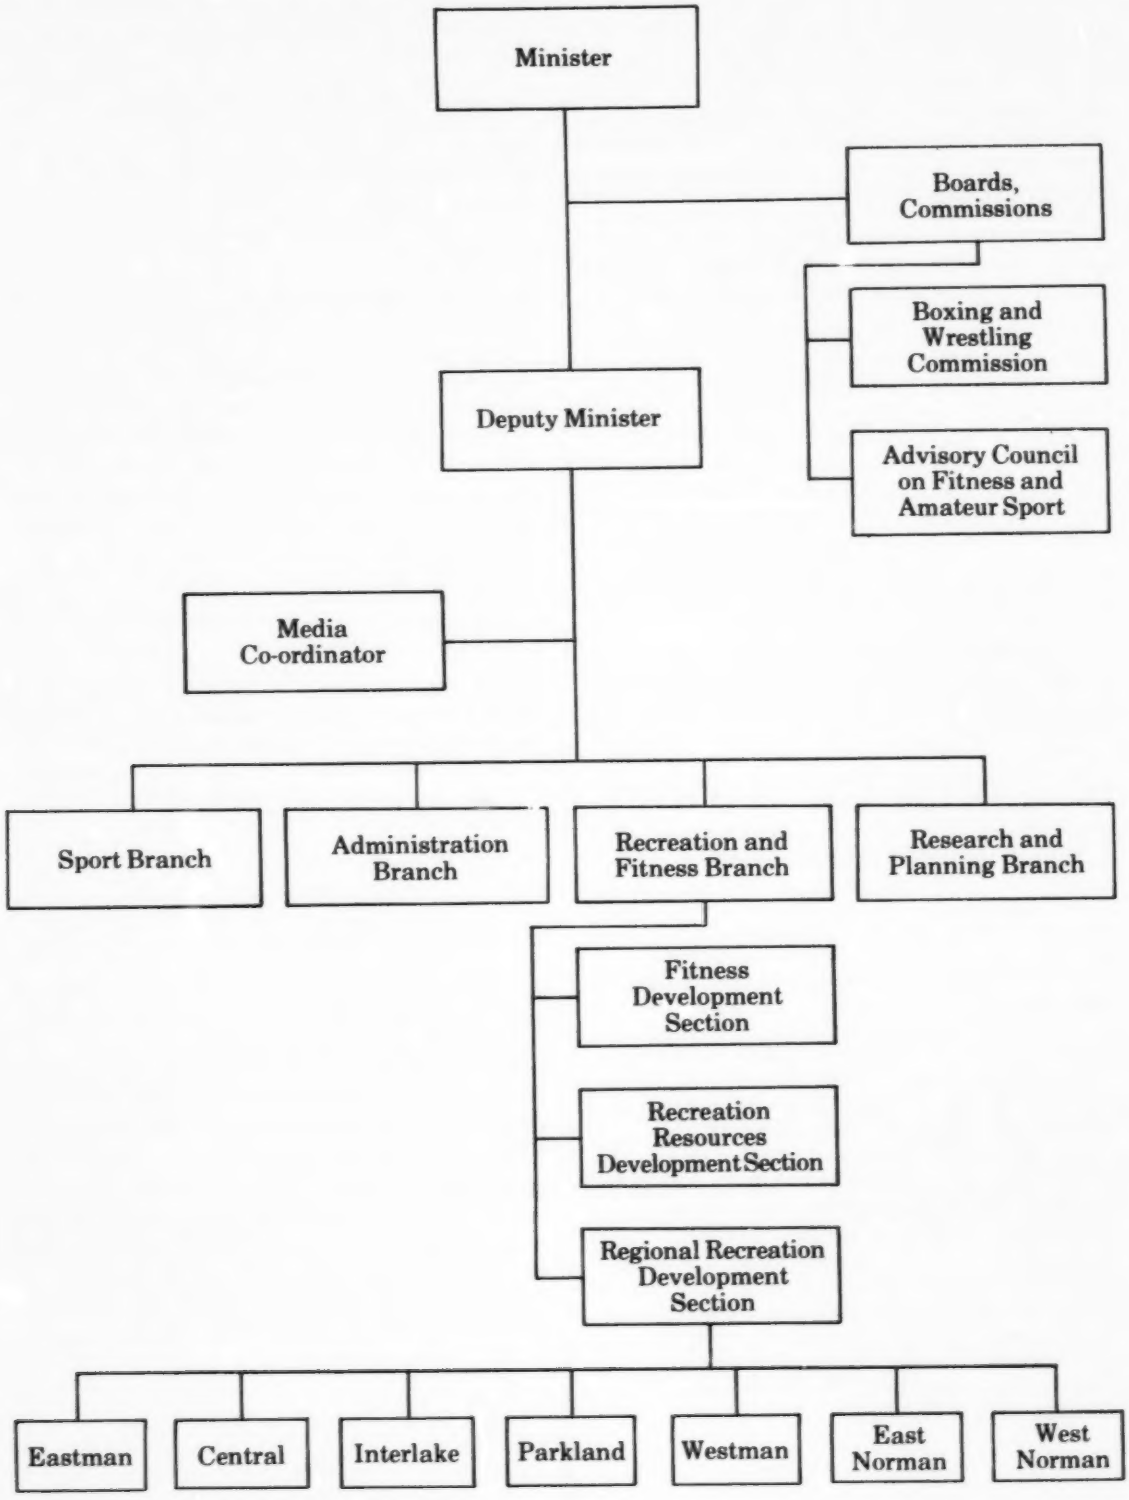
Herein you will find the reports of the Directors of our four branches: Recreation and Fitness, Sport, Research and Planning and Administrative Services. These reports represent thousands of hours of consultation, planning and training carried out in co-operation with municipalities, recreation commissions, community organizations, provincial amateur sport associations and provincial recreation agencies.

I wish to pay tribute to an energetic, competent and dedicated staff and to extend our gratitude to the thousands of volunteers who contribute to fitness, recreation and sport opportunities for people throughout our province.

Alan Miller.

ALAN MILLER
Deputy Minister

Department of Fitness, Recreation and Sport 1981-1982



Recreation and Fitness Branch

G. M. Maurice — Director

The Recreation and Fitness Branch, the largest in all the department, has a staff comprising well over half the total departmental staff complement. This is a result of the community based emphasis of its programs, offering both consultative services and financial support to all Manitoba communities. The Branch assists these communities to in turn better mobilize and utilize their resources to offer a wide range of recreational services and opportunities to their citizens.

The objective of the Recreation and Fitness Branch is to assist communities, recreation associations and agencies to develop recreation opportunities, allowing all Manitobans to participate in activities of their choice. The Branch also encourages and develops opportunities that will allow all Manitobans to attain a level of fitness, that will enable them to progress to their optimum functional level.

To better achieve its objectives, the Branch is divided into three sections. They are:

1) Fitness Development
2) Recreation Resources Development
3) Regional Recreation Development

Regional Recreation Development Section

The objective of Regional Recreation Development is to assist communities in developing recreation opportunities to meet the needs of their citizens.

To meet this objective, Regional Recreation Consultants offer a consultative service that encourages and promotes the development of leisure time activities in the community. Information and advice is available in all areas of fitness, recreation and sport concerns including program planning, budgeting, leadership training and public education. Recreation Consultants are located throughout the province in order to provide services to the people of rural Manitoba on community, district, regional and provincial levels. Offices are located in Morden, Gimli, Portage la Prairie, Brandon, Dauphin, Beausejour, Thompson and The Pas.

The main function of Regional Recreation Development requires the establishment and maintenance of strong recreation organizations at the municipal, district and regional levels. As well, community volunteers are assisted in gaining understanding of how to effectively administer the operation of these organizations.

The programs of Regional Recreation Development are: Exposure, Human Resources Development, Physical Resources Development and Community Programs Development.

Exposure

Exposure programs strive to increase the appreciation for and understanding of recreation by providing opportunities for Manitobans to be exposed to physical, cultural and social activities through conferences, demonstrations, public education and activities assistance.

Conferences, of both local and regional scope, provided a forum for discussion and exchange of ideas, resources, planning procedures and evaluating techniques.

Communities were represented 713 times at conferences in 1981/82.

Demonstrations by individuals and groups, skilled in the areas of sport and fitness, or the performing and visual arts, served to stimulate awareness and increased interest in new recreation activities in communities a total of 173 times.

Public Education includes the utilization of speakers bureaus, local cable television, rural weekly newspapers, local radio stations and informational posters and pamphlets. Each of the seven regions in the province publish a newsletter/quarterly report which provides not only information about program opportunities but also acts as a forum for communities' exchange of ideas on recreation and leisure. Communities were exposed to public education activities throughout the year a total of 2,738 times.

Activities Assistance provides opportunities for participation in new, expanded or re-established activities. Funding is provided for instructor fees, travel costs and program resources. Communities received activities assistance a total of 657 times.

Human Resources Development

Leadership Training remains a priority of Regional Recreation Development. Participation in courses conducted locally, regionally and provincially allows for the training of volunteers to enable them to be resources to their own communities. This, in turn, further aids in the expansion of recreation opportunities within each community.

The Regional Recreation Consultants co-ordinated workshops, clinics and courses in sports and arts activities that were of particular interest to the people of their communities.

Skills Development provided opportunities for people to learn leisure time activity skills to use as a base when they later act as leaders within their own communities.

The type of Skills Development events included: gymnastic and judo clinics, cross-country skiing, regional softball and volleyball camps, hockey and figure skating coaches and officials clinics, northern volleyball camp, community arts and crafts classes, water-skiing and curling events and fitness level courses. The number of times communities received or were represented by participants sponsored to Skills Development opportunities in 1981/82 was 416.

The **Northern Water Safety Program** was initiated to provide water safety instruction including utilization of life jackets, rescue techniques, and water survival for northern communities in 1981/82. Qualified Red Cross swim instructors travelled to and lived in communities to teach water safety and swim instruction for 3 weeks to children and adults of 18 remote Indian/Metis communities, they were:

St. Theresa Point
Wasagamach
Pikwitonei
Norway House
Sherridon
Manigotogan
Moose Lake
York Landing
Brochet
Hollow Water/Seymourville (Hole River)
Shamattawa
Grand Rapids
Princess Harbour
God's Lake Narrows
Garden Hill
Pukatawagan
Split Lake
Thicket Portage

Physical Resources Development

Regional Recreation Development provides assistance to communities in the development of their physical recreation resources. The programs of the department that aid in this process provide financial support for recreation facilities and equipment, and a consultative service to community groups.

Recreation Equipment Grants to Remote Communities were made available to 93 eligible communities for a total of $800 per community grant. A listing of grant recipients is at Schedule one.

Sport Facilities '80 and Recreation Facilities '81 provided assistance to Manitoba communities outside the City of Winnipeg in the development of recreation facilities. A listing of grants awarded is at Schedules two and three.

Facility Consultation is available to assist communities in the efficient planning, operation and maintenance of their recreation facilities.

Community Programs Development

This main activity of Regional Recreation Development has been identified since 1962 when the Branch was first established. At that time municipal councils were encouraged to develop and establish community recreation organizations to meet the need for better co-ordination and control at the local level. This mandate remains today and is achieved through a community recreation development consultative service provided on a local level by 16 workers located in 8 regional offices throughout the province.

Summer Recreation Activities is funded by the Department of Labour and Manpower through their Student Temporary Employment Project, with travel and training costs provided through lottery revenues, from the Department of Fitness, Recreation and Sport. This program provided employment and experience for thirty-nine university students in the planning and operation of summer activities in rural and northern communities throughout the province. Complementing the work of the Regional Recreation Consultants, the program strengthened recreation commissions and community organizations by encouraging the development and utilization of local leaders and resources.

Through the **District Recreation Directors Program**, communities unable to hire a full-time recreation director because of economics or population are encouraged to form recreation districts with surrounding communities, municipalities and school divisions. By pooling their recreation resources and with Government assistance, districts are able to hire full-time recreation directors. Annual grants to districts are based upon the number of participating municipal corporations and school divisions, the population, the population density and the total district assessment. This program has proven to be very successful in allowing communities the opportunity to meet the leisure needs of their citizens. In the fiscal year 1981/82 $273,000 in grants were allocated to twenty-nine recreation districts. See Schedule four. Recreation Districts listed by regions are as follows:

Westman Region

Souris Valley Recreation District

R.M. of Cameron
R.M. of Glenwood
R.M. of Whitewater
Town of Hartney
Town of Souris
Souris Valley School Division

Birtle-Ellice Recreation District

R. M. of Birtle
R. M. of Ellice
Town of Birtle
Village of St. Lazare
Birdtail School Division

Midwest Recreation District

R. M. of Blanshard
R. M. of Hamiota
R. M. of Miniota
R. M. of Woodworth
Village of Hamiota
Birdtail School Division
Rolling River School Division
Fort la Bosse School Division

N.C.C.E. Recreation District

R. M. of Elton
R. M. of North Cypress
Town of Carberry
Beautiful Plains School Division
Rolling River School Division

Daly — Saskatchewan Recreation District

R. M. of Daly
R. M. of Saskatchewan
Town of Rapid City
Town of Rivers
Rolling River School Division

South West Recreation District

Town of Deloraine
Village of Waskada
Village of Napinka
R. M. of Brenda
R. M. of Winchester
Antler River School Division

Prairie West Recreation District

Village of Elkhorn
Town of Virden
R. M. of Archie
R. M. of Wallace
Fort la Bosse School Division

Antler River Recreation District

R. M. of Albert
R. M. of Arthur
R. M. of Edward
Town of Melita
Antler River School Division

Glenwawa Recreation District

R. M of Oakland
R. M. of South Cypress
Village of Wawanesa
Village of Glenboro
Tiger Hills School Division
Souris Valley School Division

Turtle Mountain Recreation District

R. M. of Turtle Mountain
R. M. of Morton
Town of Killarney
Town of Boissevain
Turtle Mountain School Division

Minnedosa District Recreation Commission

R. M. of Minto
R. M. of Odanah
Town of Minnedosa
Rolling River School Division

Eastman Region

Brokenhead River Recreation District

R. M. of Brokenhead
Town of Beausejour
Village of Garson
Agassiz School Division

Lac du Bonnet — Pinawa Recreation District

R. M. of Lac du Bonnet
Village of Lac du Bonnet
L.G.D. of Pinawa
Agassiz School Division
School District of Whiteshell

South East Recreation District

R. M. of Hanover
R. M. of DeSalaberry
Village of Niverville
Village of St. Pierre-Jolys
Red River School Division
Hanover School Division

Central Region

Lorne Recreation District

R. M. of Lorne
Village of Notre Dame de Lourdes
Village of Somerset
Mountain School Division

Louise Recreation District

R. M. of Louise
Village of Pilot Mound
Village of Crystal City
Pembina Valley School Division
Tiger Hills School Division

Tiger Hills Recreation District

R. M. of South Norfolk
R. M. of Victoria
Village of Treherne
Tiger Hills School Division

Inter-Ridge Recreation District

R. M. of Glenella
R. M. of Lakeview
R. M. of Lansdowne
R. M. of Westbourne
Town of Gladstone
Pine Creek School Division

Stanley Recreation District

R. M. of Stanley
Town of Morden
Town of Winkler
Garden Valley School Division
Western School Division

Interlake Region

Eastern Interlake Recreation District

R. M. of Gimli
Town of Gimli
Village of Dunnottar
Town of Winnipeg Beach
Evergreen School Division

Arborg — Riverton Recreation District

R. M. of Bifrost
Village of Riverton
Village of Arborg
Evergreen School Division

South Interlake Recreation District

R. M. of Rockwood
Town of Stonewall
Village of Teulon
Interlake School Division

Parkland Region

Dauphin — Ochre Recreation District

R. M. of Dauphin
R. M. of Ochre River
Town of Dauphin
Dauphin-Ochre School District

Russell-Binscarth Recreation District

R. M. of Russell
Town of Russell
Village of Binscarth
Pelly Trail School Division

Rossburn-Silver Creek Recreation District

R. M. of Rossburn
R. M. of Silver Creek
Village of Rossburn
Pelly Trail School Division

Swan River-Benito Recreation District

R. M. of Swan River
Village of Benito
Town of Swan River
Swan Valley School Division

Roblin-Shell River-Hillsburg Recreation District

R. M. of Shell River
R. M. of Hillsburg
Town of Roblin
Intermountain School Division

Intermountain Recreation District

R. M. of Grandview
R. M. of Gilbert Plains
Village of Gilbert Plains
Town of Grandview
Intermountain School Division

Ste. Rose-Lawrence Recreation District

R. M. of Ste. Rose
R. M. of Lawrence
Village of Ste. Rose
Turtle River School Division
Duck Mountain School Division

Recreation Resources Development Section

The Recreation Resources Development Section provides a support service for the recreation development efforts of the regional recreation consultants, recreation agencies and other sections and branches within the Department. These services include:

— the provision of written and audio-visual resources distributed through the operation of the Resource Centre;

— the development of training opportunities for volunteers and professionals;

— consultative services by specialized staff in resource development, facility development and maintenance, leadership development and special needs areas;

— the administration of province-wide grant programs;

— the operation of special projects and events when required.

Resource Centre

In July, 1980, the Resource Centre, catering to Fitness, Recreation and Sport professionals and volunteers was opened. The Centre contains books, manuals, information files, audio visual equipment, brochures and posters. All materials are coded and listed in the Resource Centre Manual which was distributed to all recreation professionals in Manitoba. In 1981/82 a total of **12,049** units of material were requested and distributed.

Over 200 books were purchased and added to the Resource Centre in 1981/82. Topic areas related to the disabled, leadership training, camping, fitness, management and consulting skills. A film "Conducting Effective Meetings", modern VTR equipment and a microfiche viewer were also purchased.

Two new manuals, "Gamesbook" and "Songbook" were produced to be used in programs for children by play leaders.

Resource materials relating to the development, maintenance and operation of facilities were produced, including course materials and manuals, tip sheets, schematic drawings, and handouts on efficient energy use and conservation.

Leadership Training

Through the regional consultants and department supervisors, the Recreation Resources Development section provides training opportunities for the promotion and development of recreation on a provincial, regional or district basis. Training opportunities are provided for volunteers, students and professionals in recreation.

A one day refresher course on **Swimming Pool Operation** was held in May in Minnedosa with 46 people attending from 13 communities.

A **Level II Swimming Pool Management and Operation Diploma Course** was conducted at the end of October at the Gimli Training Centre. 22 participants successfully completed this course.

An Outdoor Rink Ice-Making Workshop was held in November at Grand Rapids with 9 participants from 5 remote communities.

Practical courses on **Artificial Ice-Making and Preventative Maintenance** were held in Steinbach, Souris, Stony Mountain and Ste. Rose du Lac, with a total of 166 icemakers taking part.

Throughout the 1981/82 year, 18 local workshops for communities were conducted on renovations, phasing of work, subtrades and energy conservation.

The **S.T.E.P. Leadership program** was conducted at Camp Manitou, Clear Lake in early June for 43 students hired to work as Recreation Co-ordinators in communities throughout southern Manitoba.

At the end of June, 79 playleaders were trained at a **Playleadership Training** Program held at the Gimli Training Centre.

A variety of special interest sessions were conducted at training events such as S.T.E.P. and Playleadership for persons working with disabled people.

In the 1981/82 fiscal year two new training programs were conducted: a **Leisure Counselling Workshop** for 40 group home workers and a **Correctional Workers Workshop** with 20 participants.

The second annual **Recreation Commission Members Conference** was held at the Manitobah Inn in Portage la Prairie at the end of October. 102 delegates attended. The theme of this conference was "Make the Most of Resources", emphasizing human, physical and financial resources. Specific sessions dealt with grant information, fundraising, facility development, community use of schools, effective meeting management, negotiation skills for joint committees and the International Year of the Disabled.

The **Recreation Issues and Future Trends Seminar** was held in March at the Gimli Training Centre with 72 recreation professionals attending. Future trends presentations were made by Tom Goodale and Lloyd Minshall. The participants also identified major problems in municipal recreation and developed action plans for solutions.

Consultative Services

On request from the regional offices, the Facilities Consultant met with community volunteers and staff to give advice on items ranging from operational techniques used in saving energy to actual renovations that would extend the facilities' life span. The Facilities Consultant travelled extensively throughout the province making 131 visits in the 1981/82 year.

The Resource Consultant provided leadership training opportunities to the volunteer recreation board members, part-time recreation workers and recreation professionals through requests from the regional consultants. Resource materials were also developed to support recreation development activity. The Resource Consultant also met with other agencies, institutions, government departments to co-ordinate leadership training and resource development. Throughout the 1981/82 year, 95 meetings, sessions or consultations were conducted by the Resource Consultant to further the development of leadership training and resource development.

The Recreation Consultant Programs for the Disabled on request of the regional consultants provided advice and consultation to communities regarding the development of community recreation opportunities for disabled persons. As well, ongoing liaison was maintained with social agencies and other government departments involved with disabled persons.

Grant Programs

The Recreation Resources Development Section administered several provincial grant programs in 1981/82.

Grants to Recreation Agencies totalled $84,586.88. See Schedule five for a detailed list. These grants assist the agencies to offer their services to all Manitobans.

The Department also provided assistance to community recreation facilities adversely affected by demand billing. Under the **Energy Assistance Program**, $96,462.17 was awarded to 72 facilities. This year, 95 of the 167 demand services listed or 57% were better off on demand billing. See Schedule six for separate listings of facilities.

The Department maintains ongoing liaison with the **City of Winnipeg Parks and Recreation Department.** We provided $35,000.00 to the City for leadership training development and $35,000.00 from lottery funds for a Recreation Facility Assessment Study.

Two facility grant programs were administered through the Branch during the fiscal year: Sport Facilities '80 and Recreation Facilities '81.

SPORT FACILITIES '80 continued to provide lottery funded assistance to communities for renovations and construction of sports facilities. $850,934.59 was claimed by 179 communities under this program in the 1981/82 period. See Schedule two.

More activity was seen in the RECREATION FACILITIES '81 program. Through this grant 265 community projects received financial aid on a cost-shared basis. Allocations of lottery funds for 50% of total project costs were made available up to stipulated maximum amounts. Of the allotted amount, $1,295,450.89 was claimed during the fiscal year. See Schedule three.

Special Projects

Manitoba Kids on the Block, a puppet theatre troupe was jointly run by the Department of Fitness, Recreation and Sport and the City of Winnipeg Parks and Recreation Department and later Manitoba Parks and Recreation Association. Manitoba Kids on the Block is an educational awareness program promoting positive images of disabled persons. 108 performances were conducted throughout the province in schools and on playgrounds for an audience of approximately 5,800 children.

The **Summer S.T.E.P. Student** program included 8 students working in the communities of Gimli, Swan River, Brandon, Portage la Prairie, Morden and Steinbach to assist disabled persons become involved in recreation activities in those communities.

The **Student Placement Program** expanded in 1981/82. For a number of years the Department has provided work experiences for students during the summer through the Student Temporary Employment Program. However, with the development of a Recreation Studies program at the University of Manitoba the Department provided four month work placements for four students from September to December.

The **Birds Hill Day Camp** program provided 488 children from the core area of Winnipeg with a two week day camp experience with activities in swimming, canoeing, nature studies and camping skills. The camp was operated by 23 leaders including 20 students hired through the Department of Labour and Manpower S.T.E.P. program.

The **Manitario Wilderness Skills** program provided "paddle and portage" training to 104 people at a moderate cost. Two experienced instructors hired through S.T.E.P. guided the participants on weekly trips to Mantario Lodge on Mantario Lake.

The Department provided **Camp Whiskey Jack** for various disadvantaged groups to serve as a residential outdoor recreation centre. Each group using the camp provided their own supervision and program. The maintenance of the camp was conducted by two students hired through the S.T.E.P. program. During the summer of 1981, 135 individuals stayed at the camp, representing four different organizations.

Fitness Development Section

The Fitness Development Section was formed in 1979, to follow through with one of the Departments' objectives. This is to encourage and develop opportunities that will allow all Manitobans to attain a level of fitness that will allow them to progress to their optimum functional level. The section does this by providing technical services to both communities and to the other sections of the Department. As well, in the 1981/82 fiscal year it engaged in six basic programs.

Fitness Courses

— Awareness

— Instructors Level I and Level II

— Change in Instructor Course (2 levels)

From the beginning of the year in April '81 until the end of December the Awareness and Level I and II Courses continued, but commencing January 1st, 1982, the Instructors' Courses were changed. The theory and technical sessions are now together as one complete course. Seven additional hours have been added to the program and are mainly used for technical or practical teaching.

Before these changes took place 166 Manitobans throughout the six provincial regions attended Awareness sessions, 87 completed Level I and 31 finished Level II. After the changes took place January 1st, 65 Manitobans completed the Theory Session of the Instructors' Course, and 25 were successful in completing the practical, held as a weekend session at the Leadership Training Centre at Gimli.

Each Level II Instructor is now invited to complete the new course on a one day special session in their own region. When this is completed those successful will join the other qualified instructors in assisting the teaching of Awareness Sessions and the Instructors Course.

The Fitness Development Section plans to continue to expand this program throughout the 1982/83 fiscal year.

Fit-4-Fun

This is a four level program for individuals who wish to develop or expand their own fitness program, through regular participation in activities of their own choice from fifty possible alternatives.

These activities vary from those of mild exertion, such as lawn bowling or gardening, to more demanding activities, such as jogging or swimming. The participants choose the activities and simply record their time of participation. They then progress through four levels, based on total participatory time with certificates being awarded at each level. Throughout the 1981/82 fiscal year 216 Manitobans completed Level I, 78 Level 2, 38 Level 3 and 17 Level 4.

Seniors' Olympics

When formed, the Fitness Development Section took over the administration of the Seniors' Olympics, which had been conducted by the Branch as a whole for five years. Co-sponsored now with the City of Winnipeg Parks and Recreation Department, the event annually gathers seniors over age sixty for a day of competition in leisure and fitness activities. This year's event saw three hundred men and women from Winnipeg and eight other Manitoba towns, gather at Assiniboine Park to compete in ten events. The towns were as follows: Beausejour, Balmoral, Carman, Gimli, Meadows, Sprague, Stonewall, Warren and Winnipeg. As always a supper was provided for all participants and volunteers, and this was followed by entertainment by fellow seniors and the presentation of awards.

The Fitness Section is presently encouraging and assisting the staging of senior events throughout the province.

Fitness For Seniors Instructors

This was a new program that began in the fall of 1981. Due to the demand from seniors for fitness programs and the lack of qualified instructors available at day-time hours, a pilot project to develop senior fitness instructors was held November to January 1981/82. This involved both theoretical and technical sessions, followed by a written test. 19 seniors qualified. A special luncheon for presentation of certificates was held in January and since then many of the graduates are busy teaching fitness to other senior citizens. Additional courses are planned for the upcoming fiscal year.

Fitness For Business

An inaugural Fitness for Business Seminar was held in April 1981 at the Winnipeg Holiday Inn — South. Under the direction of the Fitness Section a Planning Committee was formed to design the format of the seminar, which included both lectures and practical work sessions.

The participants in the seminar represented 33 businesses, from throughout Manitoba. They were exposed to information about and discussed existing employee fitness programs and studies.

This seminar was organized in response to the increasing demand for more information about employee fitness, from the business community. In light of the positive results of this seminar, a similar one is planned for 1982/83.

Corporate Challenge

This is a program aimed at increasing the fitness awareness of employees in Manitoba businesses. Through introducing employees to fitness and health lifestyle concepts in a fun, festival like setting, the department hopes to encourage more employees and employers to participate in physical recreation activities on a regular basis.

The first Corporate Challenge event in Manitoba, was held in September of 1980, with the support of Operation Lifestyle, a federal government health promotion agency. Last year's event, held once again in September, at the Sargent Park Recreation Complex in Winnipeg, attracted 28 companies. They competed in a variety of fun activities, designed either to highlight or require fitness.

Sport Branch

Don S. Stone — Director

The objective of the Sport Branch is to assist provincial and regional sport associations with the growth and development of their activities, thereby allowing any Manitoban increased opportunity to participate in sport activities of their choice and skill level. Achievement of this objective is accomplished through consultative services and assistance grants to the various associations and agencies.

Nine primary services and programs are offered by the Sport Branch.

Sport Development

General grants are provided to provincial sport associations to assist them in the overall development of their programs. Program areas are: clinics; hosting; hospitality; travel; special projects and provincial team assistance. Refer to Schedule Seven.

Regional Sport Development

The Sport Branch assists seven rural regions in developing the basic components of sport through this developmental program. The funding has allowed regional input into the selecting of competitive sports and developmental emphasis for their respective regions. The establishment of a yearly development plan and regional needs are the basis for funding. Refer to Schedule Eight.

National Coaching Certification Program

The branch is responsible for the delivery of this program in Manitoba. Coaching coaches is what the National Coaching Certification Program is all about. The program is a well designed and thorough system for building up a required coaching background and for comparing notes with other coaches in all sports.

The program comprises a model of five levels, each breaking down into three components: principles of coaching (theory); the techniques (technical) and experience (practical). Refer to Schedule Nine.

Man-Plan

Man-Plan provides assistance grants to selected Manitoba athletes, coaches and officials who have demonstrated skills and talents at or near levels required for national assistance.

It recognizes the need for helping reduce the financial burden faced by athletes, coaches and officials engaged in high performance programs aimed at preparing them for consideration as members of Canada's national teams. Refer to Schedule Seven.

University Athletic Scholarships

This service provides incentives for athletes graduating from Manitoba high schools to continue their university education in Manitoba. Scholarships are made available to athletes on university teams that are eligible to progress to a sanctioned Canadian Interuniversity Athletic Union Championship. The amount of scholarship assistance available to each of Manitoba's three universities is proportionate to the eligible number of sports and athletes at each university. Refer to Schedule Ten.

Games Development

Sport Branch responsibility for Manitoba's participation in interprovincial games competitions includes the selection, training, clothing and travel responsibilities for all team members. In preparation for games, assistance is awarded for selection and training of the team one year in advance of the event.

In addition to interprovincial games (i.e., the Canada and Western Canada Games), the Manitoba Games is also an integral component of the overall sport development mandate of the Sport Branch. Refer to Schedule Eleven.

Order of Sport Excellence

This award, established by the Provincial Government, Department of Fitness, Recreation and Sport, recognizes outstanding athletic achievements in provincial, national and international competitions.

The available awards and their significance are:

Bronze	Provincial Champion
Silver	National Champion
Gold	International Champion or Special Achievement

In 1981/82 three gold, 111 silver and 1,041 bronze medals were awarded.

Induction to the Order of Sport Excellence is made by the authority of the Premier and the Minister of Fitness, Recreation and Sport at appropriate ceremonies.

Recipients are registered in an official directory and receive:

- An Order of Sport Excellence certificate;
- A medal with the Manitoba Tartan ribbon and velvet case.

Provincial Medals

A medals service to provincial sport governing bodies was established to alleviate the high cost of awards while making available an attractive medal to honour Manitoba provincial champions and other higher level competitions hosted in this province.

The medals are available in gold, silver and bronze.

Manitoba Sports Federation

Each year a grant is allocated to the Manitoba Sports Federation to provide for the general costs and responsibilities of the administrative and management services of the Administrative Centre for Recreation and Sport and to provide for staff salary assistance to the M.S.F. and all other resident sport and recreation agencies. Executive and/or technical directors and other support personnel are usually hired with the aid of these grants.

Currently there are 63 provincial sport associations/agencies and five recreation agencies resident in the centre.

Services available to resident agencies in the centre include secretarial, printing, postage, telephone and spatial.

Research and Planning Branch

W. Hadikin — Director

The Research and Planning Branch provides the Department with research and planning services and the capacity to review and evaluate programs to assess efficiency and effectiveness. The general activity areas of the Branch focus upon:

Specialized Research Services

Research is conducted on an ongoing basis to provide input into program planning, policy and specific information needs. Generally, this research requires specialized skills in the design of data gathering surveys and the compilation and analysis of statistics which form the basis of recommendations regarding programs and policy. Research into new trends in Leisure, Fitness and Sport has become an important component in long-range forecasting and planning. Some examples of research projects undertaken in 1981-82 are:

1. Analysis of Recreation Projects Expenditure (1977-1979)
   Research was undertaken to provide information concerning per capital expenditures on recreation by municipal corporations.
2. Facility Inventory Update (1981)
   Research was conducted to provide the Department of Natural Resources with current information pertaining to the type and location of major recreation facilities in Manitoba. This information will form the basis for the facility maps that will be produced in the Manitoba Atlas.
3. Benefits of Recreation and Leisure
   A brief report that discusses the merits of Leisure and reviews the current trends in the recreation industry.

Program Planning and Evaluation

To insure that Departmental programs are developed in a planned format the Branch annually reviews program needs, goals, objectives and delivery. To ensure the efficiency and effectiveness of major departmental programs, the Branch undertakes evaluations that identify program and delivery performance. Some examples in this area are:

1. Planning Process — On a continuing basis the process provides the entire Department with a planning and communications tool for program planning and management accountability. The process is a dynamic one that moves from general program need areas to the specific output and identifies performance indicators for program evaluation purposes.
2. District Directors Program Evaluation — A comprehensive review of this program was undertaken to evaluate the effectiveness and recommend any required changes in policy and delivery. The report was finalized by July, 1982.
3. Long-Range Sport Plan — The Research and Planning Unit is currently working with the Sport Branch in developing a long range plan for their programs and services. It is anticipated that a three to five year plan will be developed. This will form an integral component of an overall Department long range plan.

Organizational Development and Management

This Branch activity is a logical growth from the findings of comprehensive evaluations on program areas. The focus in on identifying group working concerns that hinder job efficiency and effectiveness. The Branch also works with program managers in developing management and information systems in order to improve general performance and communications. Some project examples are:

1. The Communications Process — An annual process whereby intra-departmental concerns are identified, discussed and resolved in a formalized group approach.
2. Management Assistance — The Branch acts as a resource to program managers and aids them in understanding and implementing management concepts that improve working relationships and efficiency.
3. Outside Organizations — The Branch is responsible for the monitoring and review of partnership agreements such as the Manitoba Sports Federation Agreement and Gimli Centre Management Agreement. The main responsibility is to ensure compliance to the terms stipulated in each agreement.

Administrative Services Branch

R.P. POZERNICK, DIRECTOR

The Administrative Services Branch provides the Department, its boards and its agencies with a centralized service relating to administrative functions. In general, these functions include budgets, accounts payable, accounts receivable, payrolls, personnel and other general administrative and legal matters.

In 1981/82 the Department of Fitness, Recreation and Sport had an approved staffing level of 60.04 staff years and employed an additional 100 students for summer activities under the S.T.E.P.-In-Government Program.

The Department of Fitness, Recreation and Sport, during the 1981/82 fiscal year expended the following amounts for the programs indicated:
